

CLEAN THE AIR TO PROTECT YOUR PATIENTS

Studies have shown that nearly 700,000 medical visits in the U.S. result from infections picked up in waiting rooms.

Beyond the threat of infection from airborne germs and viruses, patients in medical and healthcare facilities can be seriously impacted by cleaning products that emit Volatile Organic Compounds (VOCs).

Patients come to healthcare facilities to get better, not worse. Isn't it time we cleaned the air?

700,000
MEDICAL VISITS

in the U.S. are a **RESULT**
OF **HEALTHCARE ASSOCIATED**
INFECTIONS picked up in
waiting rooms and other
public areas.

#1 REASON for doctor visits is
RESPIRATORY ILLNESS (flu, cold,
asthma, etc.)

WAITING ROOMS inherently
FOSTER DISEASE TRANSMISSION
from person to person
because they are in a group
setting in close contact.

CDC suggests that most flu
viruses are spread mainly
by droplets made when
people with the flu cough,
sneeze or talk and **AIR**
IMPURITIES CAN TRAVEL GREAT
DISTANCES.

CLEAN AIR, CLEANER HEALTHCARE FACILITY

Protect Against Cold & Flu

Waiting rooms inherently foster disease transmission from person to person because they are in a group setting in close contact. Removing the Influenza Virus & Rhinovirus from the air can protect patients from HAs.

Complete Germ Protection

Complement existing hand sanitization and daily surface cleaning with air cleaning to remove the harmful viruses and germs that patients and staff inhale.

Supports Sustainability

AeraMax Professional removes harmful airborne contaminants from the air without the use of harsh chemicals, solutions or toxins. Smart technology minimizes electricity consumption and extends filter life.

Drive Customer Preference

Air purification is a visible cue of a superior cleaning regimen, shows care for patrons and creates preference for the facility.

How likely would having an air purifier give you the following impressions?

Would be
CLEANER

Would be
SAFER

Would show
**CARE &
CONCERN**

Would be
PREFERRED
Facility

STRONG POSITIVE IMPRESSION

Of urgent care facility users surveyed, 94% look for signs of good cleaning practices when selecting a facility. Air purifiers create a strong, positive impression.
